5. Retirement of Material from Vital Storage and Records Center

The AD/RR has asked for suggestions as to what criteria should guide the transfer of material to Vital Storage and Records Center and the destruction of superannuated material in Records Center. Each Division will consider the problem on the basis of its requirements and comment at the next staff meeting.

6. GRR Lectures

The GRR Training Officer states that research personnel should check each GRR Training Bulletin for lectures of interest to them, notifying him of those they may desire to attend. Special notification of forthcoming presentations will be made to interested branches or divisions only when the lecture is a one-time affair and not already publicized in the Bulletin.
